CNC Router

- CNC router dust collector - check interface between filter and bag

CNC router dust collector - check interface between filter and bag

Safety

- Wear a dust mask. (If you do not have your own, disposable masks are available in the custodial room.)
- Wear safety glasses.

Check and clean interface

1. Remove the top filter from the dust collector using the handle at the top.
2. Visually inspect and brush any collected dust or debris resting on top of the funnel/cone area into the bag.
