

Laser 1 & 2: Clean bed and underneath - NEEDS REVIEW

This needs to be reviewed for content and tech_ready suitability before it is approved to be scheduled maintenance

- Remove the bed and clean up the material that has fallen though.
- Use a poking tool to free all of the material stuck in the honeycomb.
- Acquire a large bag and lot of easy off and clean the burnt on material from the bed.
- Rinse vigorously outside using a hose
- check belt tension
