

# Test & vacuum CO detector

The carbon monoxide detector is a small white plastic device located on the interior wall of the custodial room just to the right of the door.

## \*Test CO Detector\*

- Push the test button on the carbon monoxide detector.
- If it doesn't beep, the batteries are likely low and need to be replaced: file a tool report.

- Tool report: <https://airtable.com/appbIIORlmbIxNU1L/shrluff2WSzy8c3xd>

## \*Vacuum CO Detector Grate\*

Use a shop vac to vacuum out any debris from the plastic grate on the carbon monoxide detector.

Do not use the shop vac assigned to the jewelry area. (The jewelry area shop vac should only be used for metals.)
