Manufacturing

We don't have any partnerships or sponsorships for the following companies, but they are some local places that members have recommended:

- MAE technical advisory
- Trico welding
- Reuss industries
- Hutchinson and Gunter
- Conturo Prototyping

Additionally these are "outsourcing" options for cheap and reasonably quick turnaround:

- Xometry
- SendCutSend

There's also Metals Supermarkets; we have a partnership with one of their locations. They also have in-house manufacturing, including:

- Saw Cutting
- Shearing
- Hole Punching & Drilling
- Flame Cutting
- Box & Pan Brake Sheet Metal Bending
