

Tool guide missing?

If you clicked a link somewhere to get to this page, the tool guide likely does not exist for this tool. Contact hello@protohaven.org or mention this in #documentation or #software on our Discord.

Tool Guide Smart Links

See this [pull request](#) for implementation - tool guide pages are auto-linked with the URL path `/tool_tutorial/{tool_code}` based on the `tool_code` tag of the page.

Set this value based on the Tool Code field for the tool in Airtable, visible at protohaven.org/equipment
